

Supplier Certifications: Prohibited Foreign Entity Material Assistance

Project: Cottonwood Solar I
Compiled: September 10, 2026

This packet compiles supplier certifications requested for the Project's manufactured products. The material assistance restrictions do not apply because construction began on December 22, 2025, as confirmed by the independent engineer; certifications are provided for information.

Manufactured product	Supplier	Certification status
Single-axis trackers	Plainsview Tracker Co.	Received, dated August 4, 2026
Central inverters	Voltara Power Systems	Received, dated August 19, 2026
PV modules	Sunvale Module Manufacturing	Received, dated August 21, 2026
Main power transformer	Northfield Power Transformers	Received, dated September 2, 2026

Certifications have been received from every manufactured-product supplier. No material assistance cost ratio calculation has been prepared because the restrictions do not apply to the Project.
